SFS [Statute Book] no: 2003:587

Ministry/authority: Ministry of Industry, Employment and Communications

Heading: Regulation (2003:587) on guarantees of origin for electricity from renewable energy sources

Issued: 18 September 2003

Section 1. The National Energy Administration may issue provisions specifying the information to be supplied with notifications submitted pursuant to Section 5 of Act 2003:437 on guarantees of origin for electricity from renewable energy sources.

Section 2. In the cases referred to in Section 6 of Act 2003:437 on guarantees of origin for electricity from renewable energy sources, the plant owner shall calculate separately and report to Svenska Kraftnät the amount of electricity produced from energy sources which entitle plant owners to guarantees of origin. However, this shall apply only if the owner of the plant has submitted a notification as specified in Section 5 of Act 2003:437 on guarantees of origin for electricity from renewable energy sources.

The National Energy Administration may issue detailed rules on metering and reporting in this connection.

Section 3. In the cases referred to in Section 7, second paragraph, of Act 2003:437 on guarantees of origin for electricity from renewable energy sources, the amount of electricity fed into a grid shall be metered and reported by the owner of the production plant concerned. However, this shall apply only if the owner of the plant has submitted a notification as specified in Section 5 of Act 2003:437 on guarantees of origin for electricity from renewable energy sources.

The National Energy Administration may issue detailed rules concerning the metering and reporting specified in the first paragraph.

Section 4. Further provisions concerning the metering and reporting of the electricity production covered by this Regulation are contained in Section 9 of Regulation 1999:716 on the metering, calculation and reporting of transferred electricity.

Section 5. An electricity producer who obtains a guarantee of origin shall pay a fee of SEK 100 to Svenska Kraftnät, unless the application for a guarantee of origin was forwarded electronically.
