atmosfair

Certificate

for offsetting greenhouse gas emissions

AIB Association of Issuing Bodies
has offset **50,000 kg**
of CO₂ greenhouse gases on May 22, 2023.

What does your climate protection contribution accomplish?

With your climate protection contribution with the amount of 1,250.00 Euro, you are supporting the following project:

Nepal: You are helping farmer families

In rural Nepal, wood is the most important energy source. But the population grows quickly and wood is becoming less and less. What's the solution? The waste of Nepal's most important commercial sector: farming. Your donation supports building new biogas plants, which turn dung into gas. This is used to cook on gas cookers.

Since 01.01.2021, atmosfair implemented the authorization of projects according to the new framework of the Paris Agreement. The projects listed here have already received approval from the host countries (incl. so-called Corresponding Adjustments) or use CO₂ reductions from before the above reference date in order to avoid double counting.
