PRODUCT RULES ASSESSMENT PANEL MATRIX

Scheme: Electricity

This matrix sets out the reviewers for domain protocols. It shows, for instance, that Austria (AT) is reviewed by Spain (ES). A professional reviewer will also be appointed for each country, in order of cost and availability.

Key

- Countries in red are those who have yet to become members, but are in the process of applying.
- Blue squares with a “1” show the reviewer for each country
- Black squares are those countries that the reviewer cannot review (either it is the same member, or it is the reviewee – e.g. if FI reviews CH, then CH cannot review FI)
