## EECS RULES FACT SHEET 04

### MEMBER AND COMPETENT AUTHORITY CODES

The first table sets out the relationship between Members, the geographic domains for which they are Issuing Bodies and the responsible EECS Registry (CMO). It assigns a code to the Issuing Body for each country and sets out the GS1 number for the Registry. It also identifies countries where there is currently no member.

In the second table, the competent authority for each country or region is identified and given a code.
