Disclosure in a nutshell

Suppliers shall specify in bills the contribution of each energy source to the electricity purchased by the final customer... (2019/944)

Where an electricity supplier is required to demonstrate the share or quantity of energy from renewable sources...it shall do so by using guarantees of origin except: (2018/2001)

- (a) as regards the share of its energy mix corresponding to non-tracked commercial offers, if any, for which the supplier may use the residual mix

Member States shall ensure that the same unit of energy from renewable sources is taken into account only once. (2018/2001)
