

Wrap-up – supporting an upgraded GO system in Europe

GO market statistics

- Data presentation improvements coming up
- Issuing bodies open for dialogue with market

Residual mix for gas, hydrogen, heating and cooling

- Start with residual mix = fossil
- Reconsider when disclosure obligation is installed and all RES is reliably tracked

IT system design

- Evolutionary hub-centric approach
- Increased centralisation based on agreement between issuing bodies

Welcoming your feedback

1. What should the CEN process on revising EN16325 take away from the topics presented today?
2. General message to the FaStGO project team ?
