### Collection

- Different formats, different registries
- Dependent on member cooperation
- Misinterpretation

### Manipulation

- Potential for transcription errors or calculation errors
- .xlsx was no longer useable; moved to .xlsb
- Lack of flexibility/audit trail

### Time

- Impossible to report monthly!

### Other factors

- Ex-Domain Cancellations
- Non-EECS
- Non reporting registries e.g. With few account holders

### • Ideal Scenario

- Capture all data via the Hub
- Members would need to provide issuance, internal transfer, cancellation and expiry data to the Hub

### • Next best thing

- Use a database
- Design standard template for reporting (education on terminology key to reducing errors)

### • CertifyHy H2GO

- Study: Led by HINICIO (composed of ECN, GREXEL, Ludwig Bölkow System Technik (LBST), and TÜV SÜD and financed by the FCH 2 JU)
- Aim: Pilot Hydrogen GO scheme, defining processes and procedures for the GO life cycle
- Chair Nominated : Phil Moody

### • CEN/CENELEC H2GO Group

- Next meeting 18<sup>th</sup> December

Association of Issuing Bodies

Other Energies – Hydrogen & Biomethane

Open Market Committee

Laura Plunkett

- **New fuel type added to Fact Sheet 5**
  - Bionaturalgas/Code 0/ Biomethane / F01030601
  - Used when issuing electricity GOs
- **Energinet.dk had established a model for handling biomethane certificates in response to demand in gas market**
- **AIB need to look at the interaction between the two systems, specifically whether RE Gas GOs are issued according to the EECS framework**

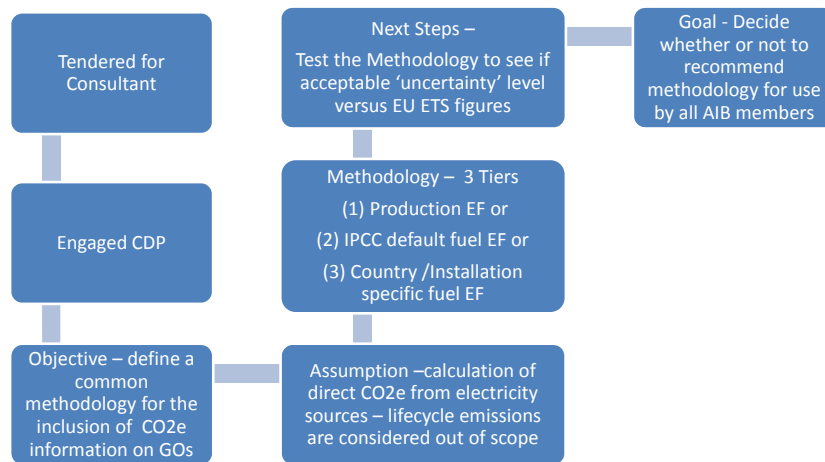

## Association of Issuing Bodies

### New AIB CO2 Emissions Methodology

#### Open Market Committee

Laura Plunkett

# GO CO2 Project

## Association of Issuing Bodies

### Geographic Scope of AIB

#### Open Market Committee

Laura Plunkett

- **Now detailed in the Articles of Association, amended July 2017**
- **Provide systems for exchanging certificates *between the countries that are or have been a member of the EU and its future additions, EFTA countries and contracting parties of the Energy Community***
